# A HISTORY OF ARNGIBBON

Arngibbon Farm has always been maintained as a livestock enterprise. In the late eighteen hundreds and early nineteen hundreds it was known as a source of quality Clydesdale horses and Shorthorn cattle . . . at the time being under the direction of McLay Brothers.

Shorthorns have been a prominent part of the livestock operation at Arngibbon since 1896. From 1915 to the early 1950's the farming operations were under the direction of John McLay, a master breeder and a man of great integrity. The principles founded and followed by him are still found in the herd today. Through careful matings and management the herd has been brought along until at the present time it is in its strongest position ever.

Since 1952 Arngibbon farm has been under the direction of Russell Ullius, a son-in-law, who came to Arngibbon after a long career in specialized dairy work and ten years of farm management.

Among the outstanding bulls used here in recent years have been Cloverhill Mainliner, a

great breeding son of Aldie Mainliner; Hickories Budget, who is represented in this sale by seven daughters; Hickories Document, by Almahurst Billionaire, and is represented by three daughters; and Silvertop Aldie, by Aldie Fanfare, who has fourteen daughters in this sale.

The present sire, Hickories Billow, by the well known Hickories Battleship, is doing an impressive job and is represented by ten daughters, as well as twelve calves at side, and twenty-four females carrying his service.

All in all the story of Arngibbon Farm is one of good breeding plus good management to achieve outstanding success in the breeding of purebred livestock.

## WELCOME TO ARNGIBBON

*I would like to extend to each of you a cordial invitation to attend the near dispersion of the Arngibbon herd on Saturday, June 4 here at the farm. The Shorthorn cattle have been a part of the Arngibbon operation since 1896 and have always been maintained on a practical and profitable basis. The labor situation and expensive hog and farming operations dictate that we reduce the size of our herd and we have decided to accomplish it in this manner.*

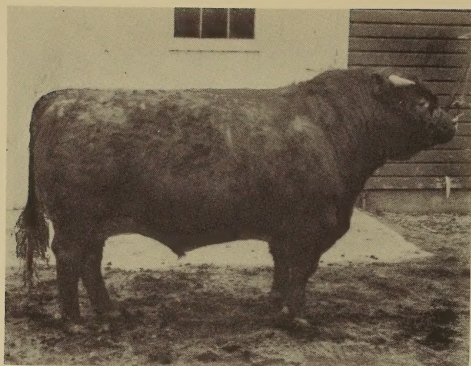

*We are not holding back any of our top producing cows but just a few favorites for our daughters to continue with in their 4-H projects.*

*Since the death of John McLay in 1952, I have been in charge of the operations here at Arngibbon. I give you my assurance that the herd is now at peak strength. The cattle are not overly fitted but in just good, practical condition. Every cow has a calf at side, is close to calving or rebred.*

*Mrs. McLay, myself and my family look forward to having you with us on June 4.*

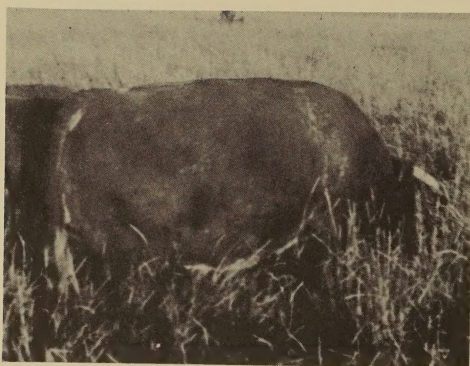

—Russell Ullius

# STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
